

San Andreas Sanitary District Notice:
Sanitary Sewer Overflow near 369 East St Charles

Date: 2/24/2025

Subject: Important Information Regarding a Sanitary Sewer Overflow

This is to inform our community that a sewer spill occurred in the area of **369 East St Charles** that resulted in some wastewater reaching the creek bed. The cause of the spill was identified by District Operators and has been resolved as of 10 p.m. on 2/24/2025. The California Office of Emergency Services has been notified (reference control number 25-0981) and a written report was filed on 2/26/2025.

District Operators responded to the event with pumper truck and bypass pumping and used specialized equipment to clear the obstruction from the pipe. We appreciate their response and tenaciousness to work late into the night to restore normal operations and to clean up the affected area.

For further inquiries, please contact our District Office at (209) 754-3281.
