

COLLECTION SYSTEM PROJECT COMPLETION 2024

In summer 2022, San Andreas Sanitary District (SASD/District) initiated the Collection System Project, or sewer replacement project, to replace specific portions of the collection system. In total 3,971 feet of 6- to 10-inch sewer mains were upgraded to 8- to 12-inch mains, and realigned where necessary, along San Andreas Creek between Treat Avenue and Pixley Avenue. Twenty-one manways were also replaced along the sewer main lines. The Engineer Certificate of Final Completion was issued December 2023. The District completed landscape restoration Fall 2023.

The upgraded collection system will ensure the system operates efficiently and will reduce the risk of sewer blockages. The District received significant grant funding from California Clean Water Drinking Program State Revolving Fund to complete the approximate \$5.3M project.

A SPECIAL THANK YOU TO THE ENTIRE TEAM INVOLVED WITH THE SUCCESSFUL COMPLETION

Thank you to the contractors who kept the project schedule and completed the work:

- Mazingo Construction, Field Contractor
- KSN, Inc. Construction Management, Dave Carr, Construction Manager
- Weber-Ghio, Construction Inspection, Michael Galusha, Lead Inspector

Much appreciation for SASD employees who oversaw the project financials and those who provided oversight and support in the field, in addition to their normal responsibilities:

- Denise Bettencourt, Invoice Management and Grant Disbursements
- Josh Weatherby, District Field Inspector
- Eric Werner, Landscape Repair and Replacement Specialist
- Jessie Smith and Shane Tate, Operations Support

COLLECTION SYSTEM IMPROVEMENTS PROJECT 2024

Collection System Improvements Project

San Andreas Sanitary District

Construction Manager: KSN Inc./WGA Engineers
Engineer: Kjeldsen, Sivvock & Neudeck, Inc.

Contractor: Mazingo Construction
Completion: May 9, 2023

Funding for this Collection System Improvements Project has been provided in full or in part by the Clean Water State Revolving Fund through an agreement with the State Water Resources Control Board. California's Clean Water State Revolving Fund is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency and state bond proceeds.
